

MILANO G ISLAND
MILANO S ISLAND

A wing-like arch—available in stainless steel or glass—is the defining mark of these airy, Deco-inspired hoods. The stainless steel option provides a durable, minimalist touch, while the glass canopy option lets natural light sift to the work surface below. Either way, expect uncompromising style and engineering—like an innovative quick-lock mounting system that ensures one of the easiest island hood installations on the market. And an optional recirculating kit that makes ductless installations a snap.
