

## **Stainless Steel Kitchen Sinks**

### **LIMITED LIFETIME WARRANTY**

EMPIRE warrants the original purchaser of our stainless steel sinks a lifetime of normal residential use.

EMPIRE will replace the sink if it fails due to manufacturing defect.

EMPIRE will not be responsible for cost of transportation, labor or installation.

EMPIRE reserves the right to examine the product, installed, prior to replacement.

This warranty applies only to original installation location.

This warranty does not cover damages caused by: - Physical abuse

- Damage from excessive heat

### **Stainless Steel Maintenance Instructions**

Our stainless steel sinks are made of 304 stainless 18/8-chrome nickel content.

Our Heavy-Duty 18 and 16-gauge stainless steel are nonporous, rust free will last a lifetime.

- **GENERAL CARE & CLEANING**

Rinse the sink with warm water and dry it with a soft cloth after each use. It will prevent water spots and mineral deposits.

- **THINGS NOT TO DO!!**

Do not use steel wool, heavy abrasive pads or powders to scrub the sink. Harsh agents, such as bleach, may ruin the finish.

- **SURFACE STAIN & RUST**

Stainless steel does not rust. If your sink develops surface stains and rust spots use Bar Keepers Friend or Flitz stainless steel cleaning products (available from your local hardware store and supermarket).

- **SCRATCHES**

Most scratches can be removed with Bar Keeper Friend and a Scotch Brite Pad. Always rub with the grain. Do not rub against the direction of the finish on the sink as it may damage the finish. If you have a deep scratch, use pumice rubbing compound and follow directions on package. Empire strongly recommends the use of its grids to protect the bottom of your sink.
